# Company overview

Clausematch is a global regulatory technology (RegTech) SaaS provider that helps organizations to operate safely and bring compliant products to the market. Our platform sits at the core of compliance management and empowers companies to collaborate, create, manage and review different types of compliance documents, in real time, with a complete audit trail and live insights, leading to more robust governance.

With Clausematch, companies can break down organizational silos by establishing a single source of truth for their compliance content and seamlessly communicating updates to their workforce. Our use of advanced metadata, AI-powered mapping and tagging, intelligent suggestions and workflows, allows companies to better manage documents, down to a granular, paragraph level. They can swiftly adapt to changes in the market, strategy and regulations, to stay on top of compliance and build trust with the board and regulators.

Financial institutions of different sizes and profiles, along with other regulated businesses, rely on Clausematch to meet regulations, grow sustainably, and achieve the highest levels of governance to avoid fines and reputational damage, while cutting compliance costs by up to 30%.

Clausematch is a global company with more than 70 employees working across

# Company journey

Here's a quick snapshot of some of the milestones from Clausematch's journey to date:

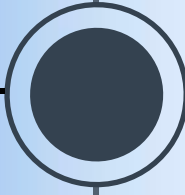

**Company journey**

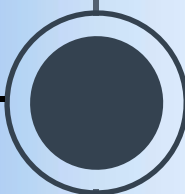

**Breaking into the Insurance market (2019)**

Clausematch successfully graduated from Lloyds Lab, validating the fit of the policy management solution for the insurance industry. The program was a door opener to Clausematch supporting insurance organizations, including Barbican Insurance, Managing Agency Partners (MAP) and many others.

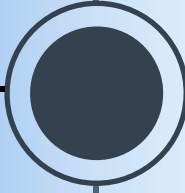

**US Launch (2020)**

In April 2020, Clausematch was one of ten companies selected to participate in the FinTech Innovation Lab NYC 2020, run by the Partnership Fund for New York City along with Accenture. The 12-week lab ran 100% virtually and helped highlight the needs of the market for innovative and collaborative tools that supported the new online-first reality. Clausematch launched operations in the US, following successful graduation from the Lab and signing contracts with 4 tier 1 North American financial institutions.

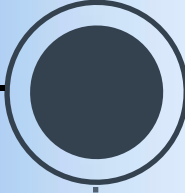

**Introducing new products (2021)**

Clausematch launched a new essential product module, Policy Portal, to help companies quickly disseminate the latest risk and compliance updates across their organization, train staff more effectively, and easily track adherence. After the Policy Portal soft launch, Clausematch witnessed an immediate surge in adoption. User numbers shot up from 2,000 to just under 170,000 in a couple of weeks, when Barclays adopted the solution for their global workforce.

**Further growth in 2022 and beyond (2022)**

Clausematch closed the strategic funding round led by Lytical Ventures, Sony Innovation Fund and Flashpoint VC to increase commercial activities in the US and invest in its product, technology and data science teams. The team surpassed 70 people based out of the UK, the US, and Singapore.

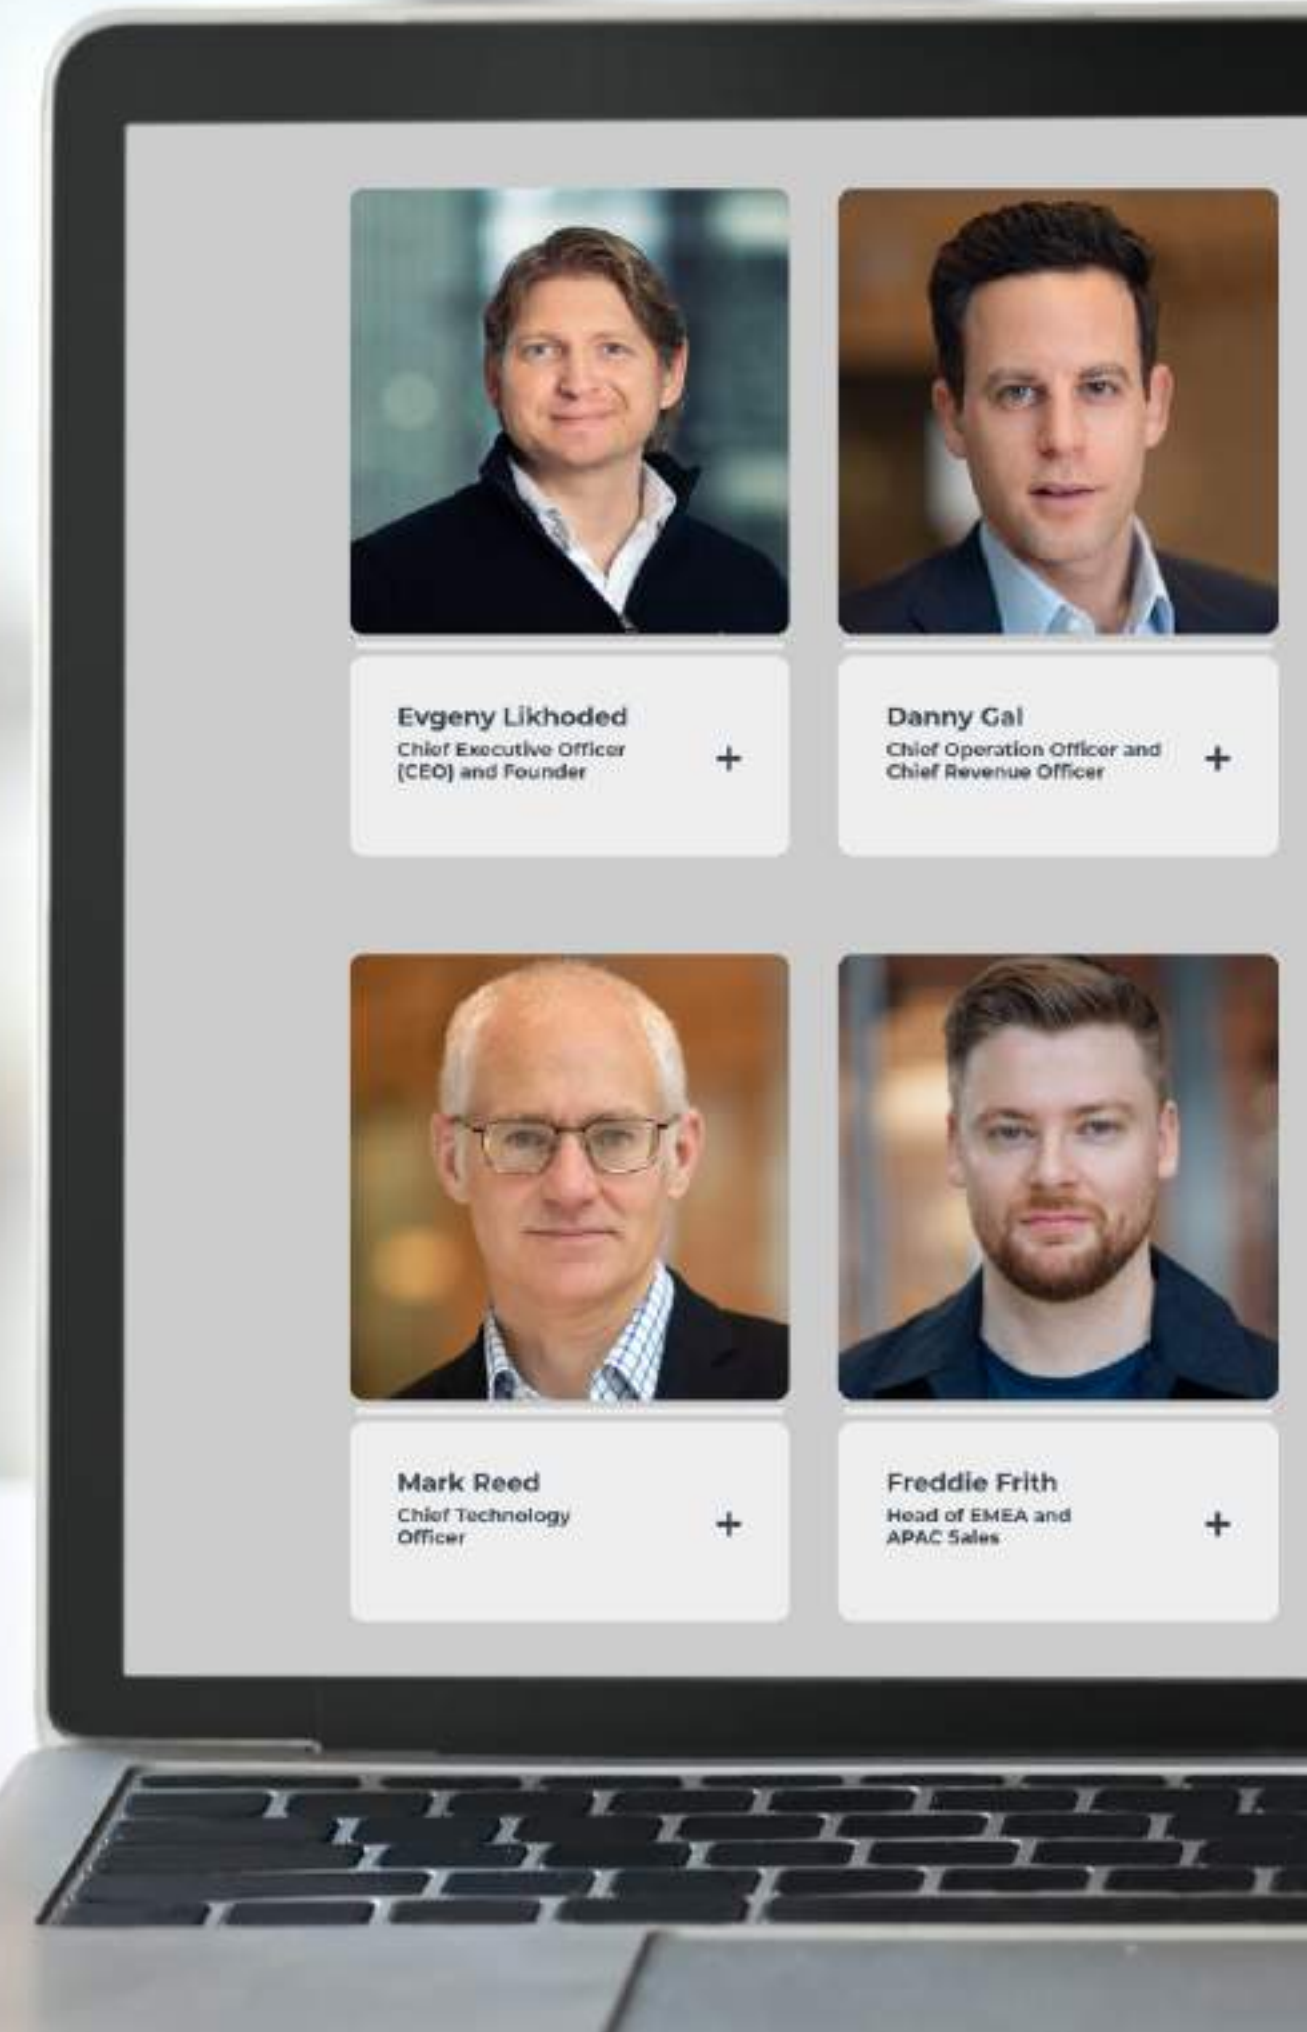

**Expansion into Portugal (2023)**

Clausematch launched its new technology hub in Lisbon, Portugal as it continued to expand its product and engineering teams. The team also released its knowledge graph in open source, a revolutionary data science project that digitizes regulation into a uniform, machine-readable format.
